

HOLIDAY RENT^{RV}

An unforgettable experience in South America

Leading South American Company

Holiday Rent RV was founded in Santiago de Chile in 1995 and is the pioneer company in South America for traveling with recreational vehicles.

The valuable know-how acquired over three decades has been one of the fundamental pillars in the development and consolidation of the leadership of Holiday Rent RV.

Our team stands out for its diversity, its passion for nature, adventure and the desire to create a unique experience for our travelers.

We have multiple nationalities on our team making it easy for our clients to communicate with us.

We speak your language: German, Spanish, French and English.

We work with large renowned travel agencies around the world.

We participate in international fairs where you can visit us directly or contact us through our website, e-mail, WhatsApp or phone.

South America is a continent of enormous geographical contrasts, a diversity of landscapes and a great thermal variation. Therefore, the adventures are unlimited: trekking, hiking, skiing, sand & snowboarding, cycling, surfing, rafting, paragliding, diving and much more.

Discover the desert, the plateau with its ancestral culture, the ocean and the Andes, volcanoes, lakes, rainforests and untouched nature.

That is why we have designed our campers to be able to travel in extreme climates: hot and cold, in the rain of the south, without worrying about snow, and in high altitudes of the north.

All with safety, comfort and freedom to go wherever you want.

“Traveling by camper gives you the opportunity to discover countries and their nature in a different, profound and meaningful way. We offer you the freedom of independence and the security of safe travel.”

Carlos Corrales
Director & Founder
